

Item

AX-P3 Recyclable Sandblaster

Article Number

PF02001

Certification

CE Approved ISO9001:2000 Approved

Purpose

This unit is used for the gentle finishing of metal frameworks, and for gross-removal of investment material and oxidation layer from clasps, crown and bridge, and rings etc.

Description

AX-P2 Recyclable Sandblaster achieves sand recycle according to the pneumatic negative pressure of siphon. It features ergonomic design, low maintenance, high compatibility, large viewing window, and cold light system. The sealant of the viewing window is also used for car windows which is very effective.

Technical Data

Power Supply: 220V/110V 50/60Hz

Power Consumption: <20W

Working Pressure: 6Kg/cm
